Everado Carrillo, 916.825.2996

---

## Introduction and Use

This document is intended to provide a guide to determine responsibility of maintained landscapes in the County of Sacramento's roadway corridors. The landscaped areas identified are typically in the right of way or just outside the right of way. This document only identifies the areas maintained by the Department of Transportation's Contract Landscape Maintenance Section. Other Department of Transportation sections and County Departments may provide landscape maintenance to other facilities but are not identified herein.

In the past 20 years, the County of Sacramento has improved and/or required improvements along roadway corridors. These improvements occur in conjunction with private development and County improvement projects. The maintenance of these landscaped areas are funded by various sources including: Road Fund, Other County Departments, Assessment Districts, and Community Services Districts.

The Department of Transportation (SacDot), Maintenance and Operations, Contract Landscape Maintenance Section provides full service landscape maintenance of these areas via private contract. Staff manages approximately seven (6) contracts with a total annual budget of approximately \$2.5 million. The Contract Landscape Maintenance Section (CLMS) is responsible for administration and management. The CLMS includes an Associate Landscape Architect, Assistant Landscape Architect, Engineering Technician and is overseen by a Senior Civil Engineer. County representatives are identified in the "County of Sacramento Representatives" section.

This document serves as a tool to help identify CLMS responsibility for maintenance of landscaped areas. The following steps can be used to locate and identify these areas.

1. **Locate** the area on the County maps
2. **Note** the Site Map No., example: 91001
3. **Cross Check** the Site Map No. with the "**Site Identification and Description**" section
4. **Read** the "Site Description" to verify you've located the correct site.
5. **Contact** Dept. of Transportation, Contract Landscape Maintenance Section and identify the problem, location and contractor.
6. **In an AFTER business hours Emergency, contact County Central.**

## Site Identification and Description

Site Map No.	Site Description	Contract Ref. No.
11001	<b>Antelope Heritage Oaks</b> Frontage Road median on the south side of Antelope Rd. between Walerga Rd. and the Park.	27028
