Project Newsletter #2 Freeport-Delta Gateway Monuments Project

What is the Freeport-Delta Gateway Monuments Project?

The Freeport-Delta Gateway Monuments Project is a Sacramento County Department of Transportation (SacDOT) effort to develop design concepts to create gateway monuments (freestanding structure or sign on posts) and one interpretive history sign for the town of Freeport. Grant funding for this effort is administered by the Sacramento-San Joaquin Delta Conservancy as part of their Proposition 68 Community Grant Program.

Prior planning efforts have highlighted historic and cultural aspects that give a unique identity to Freeport and the Sacramento-San Joaquin Delta region. Those elements will be incorporated into the design of physical improvements such as the gateway monuments and an interpretive sign. The end result will be a preliminary design that SacDOT may carry toward implementation with future funding. We encourage you to get involved!

How can you be involved?

On **Thursday, April 27, 2023** we will host the second of three community workshops. In the first workshop held March 1st, we introduced the project and gained valuable feedback and ideas from the community for the Freeport design.

At Workshop #2, design concepts based on input from the previous community meeting will be presented by SacDOT and commented on by the community. The goal of the second community meeting is to determine the community's preferred design, which will be finalized and presented at the third and final community meeting.

Community Meeting Workshop #2:

When: Thursday April 27, 2023/ 6:00-7:30 PM

Where: Freeport Wine Country Inn, 8201 Freeport Blvd, Sacramento, CA 95832

How does this effort relate to current and future projects?

Funding is in place for the preliminary design of two gateway monument signs and one interpretative sign. A construction schedule for the signs will be contingent on subsequent grant funding.
